Anudaan - Making Transplants Affordable - An initiative by MOHAN Foundation

Pallavi Kumar, Jaya Jairam
MOHAN Foundation, India

“Anudaan – Making Transplants Affordable” is an initiative launched by MOHAN Foundation in the year 2021, as a mark of its journey towards saving lives for the last 25 years. This initiative aims to provide financial assistance to the economically underprivileged, thus enable access to life-saving transplants. Most transplants take place in the private sector and the prohibitive costs makes them inaccessible to the poor. Since hardly any government hospitals perform transplants, affordable transplants remain elusive to the poor. Anudaan has been providing partial contribution to the transplant cost of individuals and has been working with hospitals to bring down the transplant costs.

This initiative is being supported by philanthropic individuals and corporate houses such as Century Plyboards India Limited, Edelweiss Tokio Life Insurance, Ethos Watch Boutiques and BNP

Paribas. MOHAN Foundation also partners with likeminded organisations such as THPF (Transplants Help the Poor Foundation), TANKER Foundation and MFJCF to name a few to share the transplant costs. We have also been raising funds on Milaap, our Crowdfunding partner. This quarter, we were able to support the transplant of nine individuals, many of them children under the age of 10 years. Anudaan aims to touch the lives of these individuals and help them achieve their aspirations.
